BOOKWORM CENTRAL

In USA 250+ Business School/Colleges

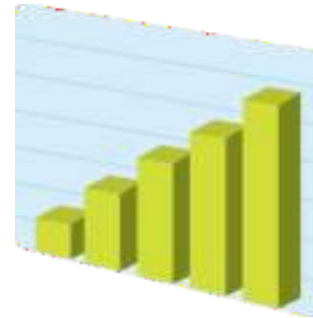

Currently using in 15+ Schools/Colleges

Customer Relationship Management(CRM)

- ❖ Knowing the customer
- ❖ In large businesses, too many customers and too many ways customers interact with firm Customer relationship management (CRM) systems
- ❖ Capture and integrate customer data from all over the organization.
- ❖ Consolidate and analyze customer data.
- ❖ Distribute customer information to various systems and customer touch points across enterprise.
- ❖ Provide single enterprise view of customers
- ❖ CRM systems examine customers from a multifaceted perspective. These systems use a set of integrated applications to address all aspects of the customer relationship, including customer service, sales, and marketing.

The three functional areas of CRM are :

Sales

- ❖ Leads
- ❖ Opportunities
- ❖ Communication
- ❖ Database
- ❖ Process

Marketing

- ❖ Planning
- ❖ Budgeting
- ❖ Marketing Lists
- ❖ Campaigns /Exhibition
- ❖ Tracking
- ❖ Reporting

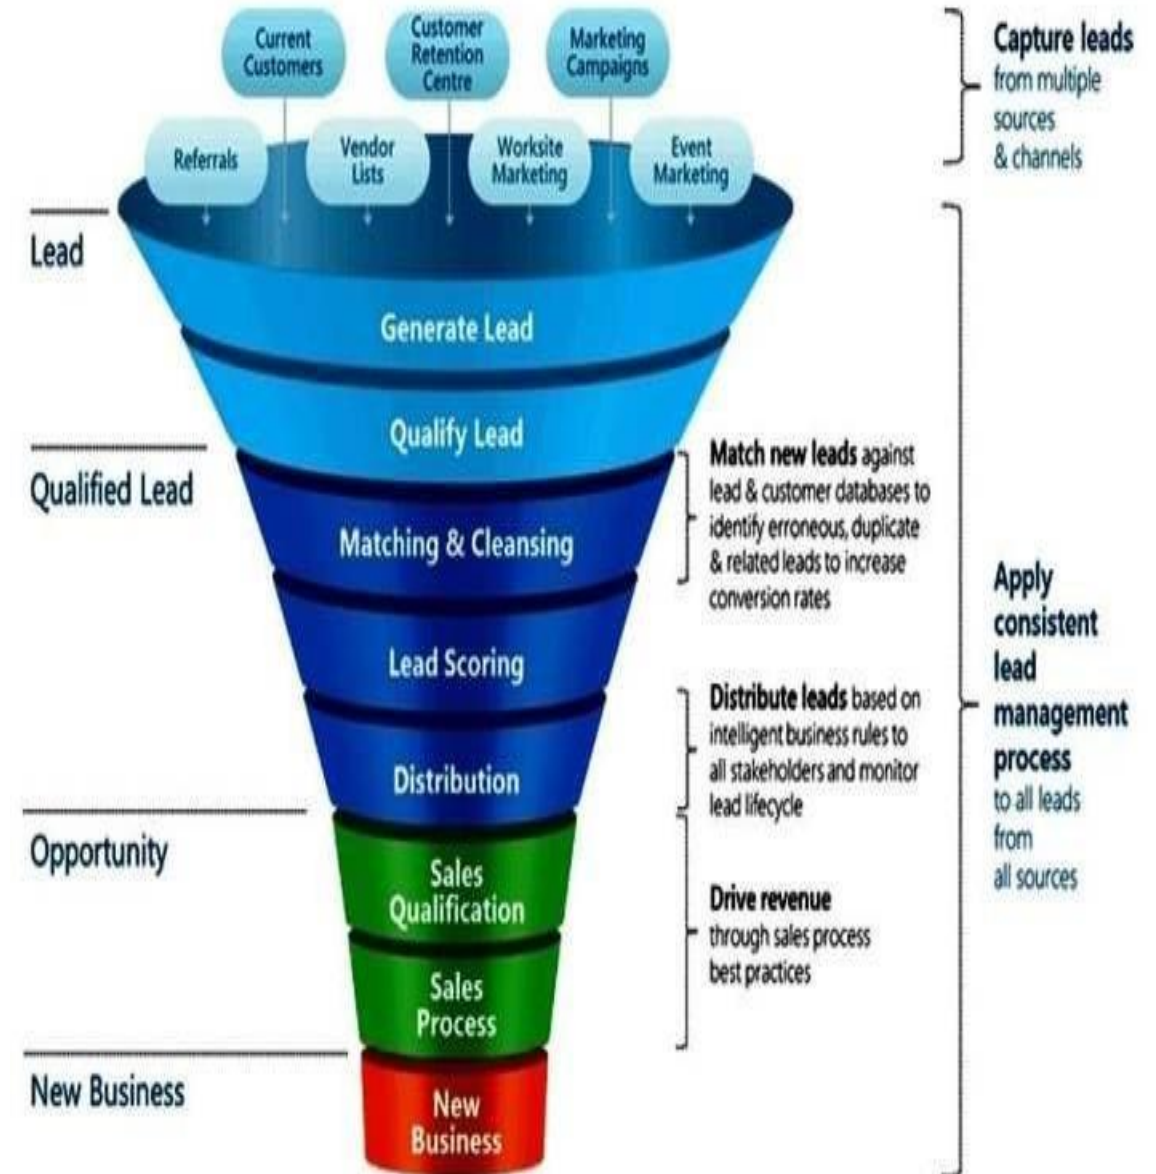

Customer Care (Service)

- ❖ Cases
- ❖ Contracts
- ❖ Resource Mgmt.
- ❖ Scheduling
- ❖ Knowledge Base

Sales Functionality

- ❖ **Leads** : Prospecting and qualifying leads
- ❖ **Opportunities** : Managing opportunities and keeping track of the stages of deal closure
- ❖ **Communication tracking** : Managing and tracking communications between salespeople and customers
- ❖ **Product database** : Maintaining a database of product information
- ❖ **Techno-Sales processes** : Using sales processes to guide sales representatives through the sales life-cycle using workflows, processes and dialog boxes.

Lead Management System(LMS)

Our **Lead management Software** fill the gap between marketing and Techno-Sales. It's a customer acquisition process which identifies potential buyers (leads), educates them, engages with them, and when the leads are considered qualified, get passed from marketing to sales it used to track the lead.

Our Lead Management System is integrated with 3-4 Dialer and Approx. 25-30 Tele caller working over it.

Module covered under our LMS Software :

- ❖ Dashboard
- ❖ Enquiry
- ❖ Enquiry walk-in
- ❖ Enquiry tele
- ❖ Enquiry list
- ❖ Off hour enquiry

Currently using in 10000+ students for online exam and eLearning purpose

In USA 15000+ students for eLearning purpose

Inventory Management System

Our Inventory management software systems generally began as simple spreadsheets that tracked the quantities of goods in a warehouse, but have become more complex. Inventory management software can now go several layers deep and integrate with accounting and ERP System The systems keep track of goods in inventory, sometimes across several warehouse locations. The software also calculates the costs -- often in multiple currencies -- so that accounting systems always have an accurate assessment of the value of the goods.

Inventory Management System

Module covered under Inventory Management Software

- ❖ Inventory
- ❖ POS
